## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 06 September 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## Disposition of Claims

**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election with traverse of claims 1-18 in the reply filed on September 6, 2007 is acknowledged. The traversal is on the ground(s) that the product, as claimed in claims 19-26, cannot be used in a fish finding sonar. This is not found persuasive because fish finding sonars have projectors and mechanical fixtures that presumably attach the sonars to a fishing vessel. Applicant is reading limitations (i.e, testing of transducers) into the apparatus claims that are not being claimed.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 19-27 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on September 6, 2007.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over the PG-Publication to Doolan ('985).

Doolan discloses a method (paragraphs 61-63) that determines an acoustic center of a transducer and corrects for variations of the determined acoustic center from a theoretical acoustic center (look-up table).

The difference between claims 1 and 17 and the Doolan method lies in the claimed step of "determining an offset of the determined acoustic center from a theoretical acoustic center". However, even though not explicitly stated, it is obvious to one of ordinary skill in this art that the "variations" between the determined and look-up table acoustic centers, described by Doolan, would suffice as "offsets". Claims 1 and 17, are therefore, obvious over the method disclosed in Doolan.

Dependent claims 2-16 and 18 are further provided by the method disclosed by Doolan.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

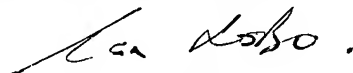

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ian J. Lobo whose telephone number is (571) 272-6974. The examiner can normally be reached on Monday - Friday, 6:30 - 3:00.
